

Safety is paramount within the commercial vehicle sector, suffice to say that our safety equipment is tested to the highest standard and is certified to conform with the British Safety Standards. Our fire extinguishers are all BSA certified and come in a range of sizes in both powder and foam. Our first aid kits range from the 'One man' pouch to the wall mounted 14 person boxes. We can also offer, replacement eye wash vials, hand towel dispensers and hand wash equipment as part of our product portfolio.

A landscape photograph of a field at sunset, with a large stylized logo overlaid at the bottom. The logo consists of a grey 'X' shape formed by two overlapping ovals, with the letters 'P', 'M', and 'H' in a bold, sans-serif font. The 'P' is on the left, the 'M' is in the center, and the 'H' is on the right. The background of the logo is a solid blue color.

	Mm	
SVC01SP	97 x 245 x 305	Wall Mounted

Please note: we do not stock the refill items for this product.

Hand Wash Unit

For hot water and hand washing in commercial vehicles, the station simply connects to the vehicles electricity supply, ensuring hot water is always on hand:
no plumbing required.

They are robustly constructed from hi-impact polyethylene (with the exception of the compact classic, which is made from stainless steel), enabling the hand wash units to stand up to repeated and excessive road use.

The hand wash stations can heat water to 38°-43°C.

Panic Strip

Our panic strip is an aluminium base with an inlayed rubber and brass strip running the full length, which are available in a range of colours, with black proving the most popular. The insert can also be treated with an anti-microbial powder to fight all know super-bugs for the life of the panic strip.. With a highly sensitive activation zone, to be used for an array of situations when assistance is required urgently.

All UK ambulances are fitted with the anti-microbial strip, to insure ambulance personnel safety.
