

## KLIMA-FLEX HINGE 180°

Adjustable in the X- and Y-axis if used with adjustment parts and oversized mounting holes in the door. The hinge is mounted to a threaded plate previously attached to the inside of the door with a mounting bracket, temporarily taped to the door skin. The hinge can also be used without the adjustment parts, by using self-tapping screws. Universal right or left mounting.

Adjustment parts = Threaded plate with bracket (drawing C).

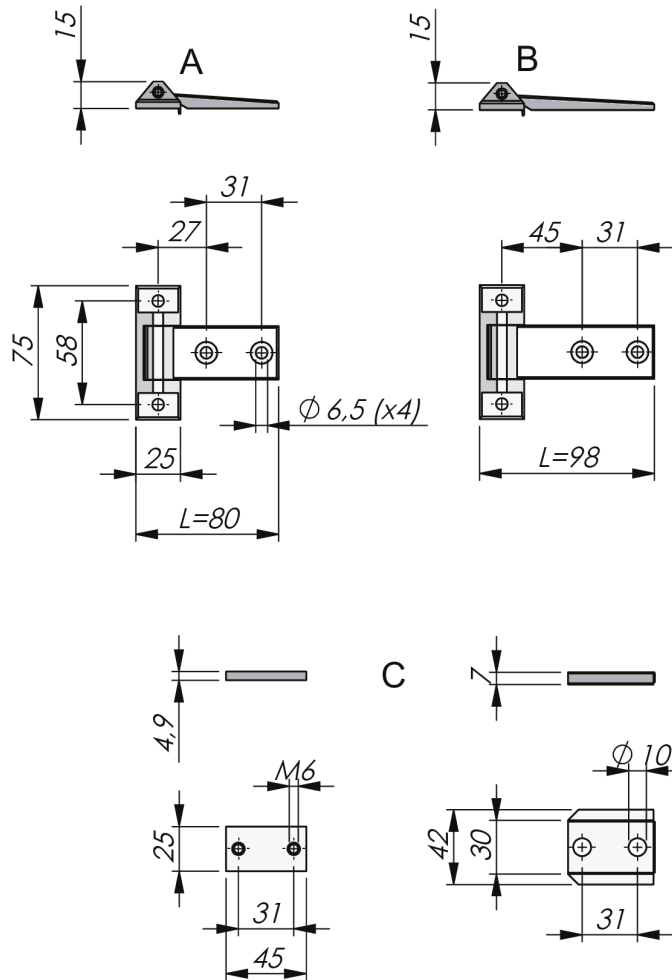

**MATERIAL**

**Bracket:** Steel, zinc plated

**Hinge:** Zinc die cast, zinc plated, chrome plated or black texture powder coated

**Pin:** Steel, zinc plated

**Threaded plate:** Zinc die cast, zinc plated
