

KLIMA-FLEX 1 LATCH UNIT

The Klima-flex system is designed for quick and easy mounting in insulated doors. There are two cut-out versions: Combi and K-Flex. Combi is fixed with a spacer nut and K-Flex is fixed with a cam, a regular nut or a starlock washer.

Inside options:

- Unit S50, S100 and SC50 can accommodate all accessories
- Unit M25, M50 and M60 accommodates a cam and can be complemented with an inside handle or a rod link
- Unit G50 and GC50 can accommodate a cam only

Learn more about designing a full Klima-flex system [here](#).
