

# QUARTER-TURN VIBRATION RESISTANT STAINLESS STEEL 18 MM

This flush mounted vibration resistant quarter-turn latch consists of acid-proof AISI 316 components. You design the latch to accommodate your needs by combining your choices of nut, insert and cam. The latch can be delivered un-assembled, pre-assembled with enclosed cam or fully assembled.

Protection degree IP65 is achieved by using an O-ring on the insert and a PUR-gasket on the housing.
