

SPACER NUT M5

Spacer nut with M5 thread. Used when mounting Vector products with M5 bolts in sandwich doors. Please specify LLL (mm) to your door thickness to get the correct spacer nut length. Head comes with both Hex 10 and Torx 30, the latter makes it easy to install also in tight areas.

Example P/N for 25 mm door thickness: 275212-22-011025

MATERIAL

Nut: Steel, zinc plated
