

ROOF HATCH CONTROL UNIT

The Control for your Electric Glass Roof Hatch is Homologated according to EC 2004/104 and is EMC approved. This unit can control up to two separate hatches, operating the open/close function at the front and rear of the roof hatch. The unit displays the position of the dome in green LED's and the push buttons in orange. The unit closes automatically when the ignition of the vehicle is turned off but can still be operated and used for ventilation. The panel display has a current save function which reacts to usage.
