

VISION HOME CONNECTED PAIR HANDLE RIGHT

Vision Home mechanical pair handle for use on the inside of a double balcony or patio door. The handle is suitable for both in and outward facing doors.

The shaft is 110 mm long and cut to the correct length for your specific door. It's a square 7x7mm shaft and delivered with adapter sleeves to fit with 8 mm latch system as well.

For double doors where only one door needs to be locked you need to order one pair handle (this mechanical pair handle) and one Vision Home digital handle that ensure the locking. Vision Home digital handle and mechanical pair handle have the same design to match perfect beside each other.

MATERIAL

Handle: Zinc die cast, satin chrome or black texture powder coated

Housing: Zinc die cast, satin chrome or black texture powder coated

Shaft: Steel, zinc plated

Cover: PC+ASA
