

VISION SWING HANDLE

HIGHLANDER TOOL OPERATED

Low profile swing handle for control mechanism with insert. Vision Highlander design withstands 1000 hours in salt fog and 45 Nm torque. Available in turn-to-latch version where the door is locked by turning the key and push-to-latch version where the spring-loaded cam latches when the handle is pushed in. The handle is padlockable and the spring-loaded padlock loop retracts when the handle is released. Suitable for doors with 0.8–3.5 mm thickness.

MATERIAL

Dish: Zinc die cast, black coated or fibre glass reinforced polyamide (PA6GF30)

Handle: Zinc die cast, black coated or fibre glass reinforced polyamide (PA6GF30)

Insert: Stainless steel 304

Padlock loop: Stainless steel 304

Pivot shaft: Zinc die cast, special surface treatment (passes 30 day salt-spray test according to ISO 9227, equivalent to ASTM B 117.)
