

VECTOR P HOOKED CAM

This patented heavy-duty paddle latch is available with left, right or universal grip handle. The latching mechanism securely latch the cam behind the striker and the more force that is placed on the cam – the harder it will engage the striker.

Installed with a mounting bracket or four moulded-in bolts. IP66 water- and dust sealing. Key extraction: open/closed

Available with the inside release safety feature. This enables opening the latch from the inside even when it is locked.
