

ADJUSTABLE CAM

Adjustable cam that can be assembled on all quarter-turn latches for combi cut-out including L-handles, T-handles and knobs. Available both for latches requiring cam with projection and for latches requiring cams without projection. Provides 23 mm adjustability and between 21,5 – 45 mm for latches with 18 mm housing depth. Cam is secured at chosen grip range with a set-screw.

Both set-screw and screw to attach the adjustable cam to the latch are supplied as Phillips head screws.

MATERIAL

Cam: Zinc die cast, zinc plated

Screw: Steel, zinc plated
