

VECTOR RODS 4 MM

Vector rods to connect Vector latchpoints, for example Vector rotary latches, Vector actuators and Vector pull handles. The L-shaped end-connections attach easily and securely to the latch points and actuators.

Adjustable rods (drawing A) are supplied as two rods of equal length which connect to each other with the adjustment adaptor. The set screw is equipped with mechanical thread locking.

The fix length rods (drawing B) are supplied upon request as one-piece rods without adjustment adaptor.

MATERIAL

Rod: Steel, zinc plated

Rod adapter: Steel, zinc plated
