

INTELLICLAMP 3D 50X50MM

3D-Intelliclamp for connection of sections or units. The 3D-Intelliclamp will align separate units in X-, Y- and Z-axis as the bolt is tightened. Provides a solid connection with perfect alignment of surfaces. Mounting with rivets or screws. Each 3D-Intelliclamp consists of two interlocking halves, inter connecting bolt and nut.

MATERIAL

Interlocking parts: Zinc die cast, black texture powder coated or zinc plated

Through-bolt and nut (M8): Steel, zinc plated
